Your Education.

Is your education as satisfactory and profitable as you would like? Most people must answer this question in the negative, because they do not use their education. The training given in this institution is useful every day and is therefore the best education in the world. It will prepare you for success when the opportunity comes. Be Ready. Be Ready.

Practical Practice.

The way to learn to do a thing, is to do it.
The way to learn to conduct a business, is to conduct one.
Practice makes perfect—A course at Lockyear's Business College begins in actual practice, continues in actual practice, and ends in actual practice. We use over \$5,000 worth of typewriters, office furniture, individual desks, and books, making the entire course of the highest value.
